

Fracflow Consultants Inc.

Environmental, Hydrogeological and
Geotechnical Engineering Consultants

CIVIL / ENVIRONMENTAL / GEOTECHNICAL POSITION

Fracflow Consultants Inc., a hydrogeological, geotechnical and environmental engineering consulting firm requires an experienced and licensed junior Professional (EIT), or an experienced and accredited Civil/Environmental/Geotechnical Technician (CET) for its **Dartmouth (Burnside), NS office**. The successful applicant will provide support to existing and future projects in mine dewatering, potable water supply, environmental assessment, site remediation and geotechnical engineering. Ability and willingness to travel to local, national and international locations, including remote areas, for periods of three or more weeks on a rotational basis is a requirement. Preparation of report-quality, scaled figures and engineering drawings using AutoCAD, CorelDraw and Excel is an essential skill for this position. A demonstrated proficiency in math and statistics is also required for data processing and database management.

The successful applicant will have a degree in Civil/Environmental Engineering, Hydrological Sciences, or other relevant field, must have a minimum of three (3) years of continuous employment experience in those fields of work, and be on track to receive a P.Eng. designation in no more than two years. A graduate from a relevant diploma program having five (5) years of continuous and related work experience, and a CET designation will be considered.

The successful applicant will have a valid driver's license with a minimum of five (5) years of licensed driving experience and be able to provide a current and acceptable Driver's Abstract for insurance purposes; and will hold or have the ability to obtain a Canadian passport. Salary will be commensurate with experience.

All applications will be received by our head office location. Please submit your application, including the names of three references **and a copy of your transcripts**, by Friday, June 26, 2019 to:

Fracflow Consultants Inc.
154 Major's Path
St. John's, Newfoundland and Labrador
A1A 5A1
Fax: 709-753-5101
Email: Karen_ffc@nfld.net
Attention: Karen Andrews

Employment is expected to commence as soon as possible. Fracflow wishes to thank all those who submit applications for the above position and advises that only those chosen for an interview will be contacted.
